High Power Festoon bulbs - Canbus 12V - 6000K

LED Festoon's with 1 x High Power LED, that gives a very strong light compared to the bulbs compact size. Available in different lengths.

LED festoon LED bulbs built with the latest High Power LED technology, giving you an extremely bright light combined with a compact size.
The festoon bulb is built to be used on most newer cars that have canbus or lamp control, but of course, you can also use the bulbs on older cars without canbus / lamp control.

The bulbs are mainly built out of aluminum to provide optimal cooling for the High Power LED, which provides about 150 lumens. The color is 6000K (xenon-white).

Ref. No: 239, 269, 12844, 12866 SV8.5, C5W, C10W, 12V, 120248-R, 120386, 120388
