T-track guide-rail system - Standard clamp set

Complete standard clamp set with sliding nut, that fits in T-tracks. Easy to adjust and fasten with finger-nut.

Complete standard clamp set with sliding nut, that fits in T-tracks. Easy to adjust and fasten with finger-nut, and the spring on the bolt holds the clamp up while setting up the job.

When you need to fasten a part, you should use a spacer with similar height, on the opposite side.

Made of blue-annodized aluminium.
