W5W 12V Osram Cool Blue Intense Next gen. 2 pack

W5W halogen bulbs that have a more blue light compared to standard halogen ones, giving the light a xenon look.

W5W halogen bulbs have more blue light compared to standard halogen ones, giving the light a xenon look. The color temperature of these bulbs is 4000 kelvin.

The bulbs are typically used in position lights, license plate light, and interior lighting. They are, of course extra useful if you use Osram Cool Blue intense bulbs for other lights.

Osram reference: 2825CBN-02B
