Electrical horn, deep / 335Hz - 12V, UNECE

Powerful electrical horn, with a deep horn-sound. Connected to 12V for activation. ECE approved for mounting on road vehicle.

Powerful "rich tone" electrical horn, with a deep horn-sound. Connected to 12V for activation. ECE approved for mounting on road vehicles (R28).

Teflon insert protects the horn against water (IP54), and it has a corrosion protected surface.

There is M8 thread on the bracket, and it is easily bolted on anywhere.
