MiBoxer Zigbee controller system

Zigbee light dimmer and controller for 12V and 24V LED strips and LED profiles.

Zigbee-controlled light dimmer and controller for 12V and 24V LED products such as LED strips and LED profiles.

The following versions are available:

Single Color: Maximum 12 Ampere
RGB Color: 6A pr. channel or a maximum of 12 Amperes in total.
RGB+White Color: 6A pr. channel or a maximum of 12 Amperes in total.
RGB+CCT Color: 6A pr. channel or a maximum of 12 Amperes in total.

All controllers are compatible with Tuya, Philips Hue, IKEA TRADFRI, Amazon ECHO Plus (2nd Gen), ECHO (4th Gen), ECHO Studio, ECHO Show (2. Gen) standard Zigbee 3.0 gateway. However, there may be some features that are not available such as "Scenes" on Philips Hue.

If you do not have any of the obove HUBs/Bridges, but still want to control by app, you will have to buy a Zigbee gateway to be able to control this controller.

The controller has a range of up to 100m in an open space.

There is an English manual included to the product.

If you do not want to control by an app, you can have a look on other series of wireless controllers.
