CRI90+ COB LED Stripe, 50cm - 12V

COB LED strips that create a super even light, without the typical dots. Different colors with high CRI value. From 50cm to 5 meter.

Strong COB LED strips that create a super even light, without the typical dots. Different colors with high CRI value. From 50cm to 5 meter. The LED strips has 480 LEDs per meter, and the frosted phosfor layer on top, makes it hard to see the dots - you will have to look close up.

The white colors all have a CRI value of 90, giving you a good color representation.

The LED COB light strip can be shortened or extended further to suit your project. The strip is built up in small modules of 5 cm with clear marks where the strip can be cut, as well as soldering spots where you can solder a wire on or extend. On the back there is a strong 3M tape which means that the light strip stays in place without screws.

It is sold in units of 50cm, but can be supplied in coils up to 5 metres.
This means that if you order, for example, 5 x 50cm, you get it in ONE long piece of 250cm, and then you can shorten it yourself/extend as it suits the task.

Unless you buy a whole 5M roll (10 pieces), there is no wire mounted on the light strip. So if you don't have a soldering iron, you can either buy our COB connectors or use the "Light strip guide" at the top, where you can buy COB light strips in various length and with various wire options.

If you want to use the COB light strip in the house, you can purchase an additional transformer and there is also the option of dimming the brightness with a dimmer. Feel free to contact us for guidance on choosing the right parts for your project.

Warm White 2700K, 950lm - 8mm
SKU 609265
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480
Color temperatur: 2700 Kelvin

Warm White 30000K, 1000lm - 8mm
SKU 609266
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480
Color temperatur: 3000 Kelvin

Neutral White 4000K, 1100lm - 8mm
SKU 609267
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480
Color temperatur: 4000 Kelvin

Xenon White 6000K, 1190lm - 8mm
SKU 609268
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480
Color temperatur: 6000 Kelvin

Yellow, 910lm - 8mm
SKU 609264
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480

Warm White 2700K, 1400lm - 10mm
SKU 609260
Voltage: DC12V
Watt / m: 15,0 Watt
LEDs / meter: 480
Color temperatur: 2700 Kelvin

Warm White 3000K, 1500lm - 10mm
SKU 609261
Voltage: DC12V
Watt / m: 15,0 Watt
LEDs / meter: 480
Color temperatur: 3000 Kelvin

Neutral White 4000K, 1650lm - 10mm
SKU 609262
Voltage: DC12V
Watt / m: 15,0 Watt
LEDs / meter: 480
Color temperatur: 4000 Kelvin

Red, 200lm - 8mm
SKU 609263
Voltage: DC12V
Watt / m: 10,0 Watt
LEDs / meter: 480
