Hella Valuefit Chrome Blade 9" LED Spotlight, E-Approved 12V / 24V

Hella Blade series with dual color position-light, allows you to switch between white and yellow position-light. 9-inch and chrome or black housing.

Hella Valuefit Blade 9 inch spotlight high is a new type lamp with a modern design and with integrated LED light and dual color position-light, that is placed in the middle of the lamp. This gives you the possibility to change between white and yellow positions-light as you feel like it so that it fits your vehicle. The yellow position-light is not E-approved.

The LED spotlight has a chrome housing, that makes it look like the classic Hella spotlight or a timeless black housing - both with new and improved LED technology. The LED spotlight has built-in heat sinks, which ensures efficient thermal control to achieve the longest possible lifespan. The LED spotlight is made of a high impact thermoplastic lamp housing. The supplied mounting brackets are made of zinc-coated steel with various adjustment options.

The LED headlight can be connected to both 12V and 24V

ECE type approved (ECE-R112 high beam, ECE-R7 position light, ECE-R10 EMC)
