Horn / Pneumatic valve with pull wire

Simple air valve, that opens when you pull in the wire. The flow is easly adjusted, and is perfect for horns.

Simple air valve, that opens when you pull in the wire.

The flow is easly and precisely adjusted, and is perfect for horns, because this allows you to make many more sounds that with a simple on/off valve.

A 1200mm wire is included, but you can use anything to connect to the valve.

The valve has a 1/8" thread in one end, and a 6mm hose connector in the other.
