Aluprofile for LED strips - Wallight 3 - 2 x 1 meter - restsalg 243

A nice annodized aluminum profil that is intended for mounting on a wall. A LED stripe will light down in the profile and will give an indirect light.

A nice annodized aluminum profil that is intended for mounting on a wall. A LED stripe will light down in the profile and will give an indirect light.

We only have one set of this, that consists of:

- 2 x 1 meter profiles
- 2 set ends
- 4 long spring fasteners
- 2 short spring fasteners

The profile can be mounted low for lighting up the floor or high for lighting up the ceiling. For the best result, it should not be possible to see the LED stripe.

It can be glued on orit can be mounted with matching accessories.

Endcaps

Encaps milled in aluminum that fit the Walllight 3.0 profiles. They are simply screwed on to the end and give a nice finish.
