Reading light emitter for MAN TG 2023+

LED light source replacing the original ones in the reading lights in the ceiling of MAN TG 2023+.

LED light source replacing the original ones in the reading lights in the ceiling of MAN TG 2023+.

The 6 bright LEDs gives you a great light in the front of the cabin.

Installation is quite easy, requiring only the removal of the glass, clicking out the original emitter, and inserting the new one.
