BASEX Lights LED high-beam with dual position-light, E-approved

Stylish and modern-looking E-approved LED high-beam with a powerful light and X-shaped dual color position light.

Extremely stylish E-approved LED high beam from BASEX Lights that offers a truly unique look. The light contains a total of 2 x 40W and 2 x 20W LEDs strategically placed to stay hidden while providing extremely powerful lighting.

Currently available in a 9" version with 120W / 11,000 theoretical lumens.

Additionally, it features an X-shaped dual color position light, allowing you to switch between white and yellow position light at any occasion, matching your vehicle perfectly. Upon startup, the position light initiates in 3 sections, one after the other, starting from the center and expanding outward.

The light diagram shows they illuminate with 1 lux at 575m using the boost function, allowing you to view reflections in cones further down the road than indicated in the photo.

The front glass is made of polycarbonate, and the housing is crafted from powder-coated aluminum for a sleek design and efficient cooling of the diodes.

A mounting bracket is pre-attached, and it includes a pre-installed 4-pin ATP connector for straightforward installation.

- Black: Minus / -
- Blue: High-beam (E-approved)
- Red: High-beam (Boost / NOT E-approved)
- White: White position-light
- Yellow: Yellow position-light

Approval: ECE, R148, ECE R149, R10, CE
