Spectrum Limea Connect 120cm 36W

Compact LED luminaire that is waterproof and dustproof (IP65), impact-resistant (IK08), high light output, easy installation with through-wiring.

Powerful lighting with the Spectrum Limea Connect 36W LED luminaire, which can be used for many tasks:

- Waterproof and dustproof design (IP65): Perfect for both indoor and outdoor installation
- High light output: With 147 lm/W you get powerful and energy-efficient lighting.
- Impact-resistant construction (IK08): Built to withstand impacts and shocks.
- Easy installation: Through-wired for trouble-free series installation, which makes it possible to connect up to 22 luminaires. Supplied with mounting clips.
- Can be connected in series (Max. 22 pcs. in series)

The Spectrum Limea Connect 36W LED luminaire is ideal for all environments. It is IP65 waterproof, IK08 impact-resistant and built to be easy to install and durable.

The connection and through-wiring are without protective earth, as Spectrum Limea Connect is approved for Class II.

It is permitted to install permanently connected Class II equipment, without an active protective conductor, on the condition that the installation is protected by a 30mA RCD and that the installation does NOT supply anything other than these lamps.
