Series 40 - Lift Hinge with Single Hole

Two-piece hinge for removable doors. Left/right models. Easy M6 bolt installation. Made of nylon with a metal axle.

Two-piece hinge for series 40 profiles, with a single mounting hole. Used for doors where the door needs to be completely removable. Available in left and right models.

Easily fastened with a single M6 bolt and a track nut. Tabs on the back ensure it cannot rotate in the track.

Made of nylon, with a metal axle.
