Cable tape / wrapping tape - Fabric, 19mm x 0.29mm x 10m

Woven fabric tape with rubber adhesive for cables in vehicles. High strength, oil & UV resistant, easy use

Woven fabric tape (Viscose/rayon) with rubber adhesive. Wrapping tape is used to secure and bundle cables and wires, especially for use in cars and trucks, where it also provides increased mechanical protection.

The cable has several advantages over other plastic tapes:

- High tensile and tear strength
- Oil resistant
- UV resistant
- High adhesive strength
- Easy to use as it can be torn by hand
- Can be used from -40 to 105 degrees
