Double-sided rubber-foot , 3M round Ø11.2 x 5.1

Smart, transparent rubber pads: sound-dampening and shock-absorbing. Perfect for appliances, cabinet doors, and electronics

Smart, self-adhesive rubber pads, perfect as small feet, stoppers, or to create distance between things.

They are transparent and measure 11.2 mm in width and 5.1 mm in height, and they are excellent at dampening sounds and absorbing shocks.

They adhere well without scratching, so you can use them under your small appliances, on cabinet doors to prevent banging, or wherever you need to protect surfaces and reduce noise and vibrations. Ideal for various electronics like enclosures, keyboards, and speakers.
