Strands FOR9T GEO LED Marker light unit, 10-40V

Enhance your vehicle with FOR9T Geo stylish marker light inserts. Available in 3 different colors.

Give your vehicle a unique look with the FOR9T Geo marker light inserts. Stylish addition from Strands' popular FOR9T series. Geo is available with white, red, or amber light.

The distinctive illumination with 3D lines in the lens combines bold design with high functionality, making it a perfect match for the rest of the FOR9T series.

Geo fits most rubber arms, including the Gylle rubber arm, with its 70.2 mm diameter. It is made of corrosion-resistant polycarbonate and fully sealed (IP67) for long-lasting durability. Like all products in the FOR9T series, it comes with a 3-year functional warranty.

Thanks to the 250 cm cable, installation is highly flexible. Geo is E-approved (R148) and perfectly complements the other lights in the FOR9T series.
