Fristom LED work light in plastic, 12V-32V

The known LED work light made entirely out of plastic and mounting brackets.

• The new series of ultra-slim work lights combines high performance, modern design and compact dimensions.
• It is the ideal solution for use in areas with limited space.
• Perfectly suited for trucks, construction machinery, agricultural machinery and special machinery.
• High brightness – approx. 1400 lumens – ensures excellent visibility even in the harshest conditions.
• The robust design provides high resistance to weather conditions and intensive use.

The FT-036 LED light has obtained additional approval and is operational.

It has a reversing function when the light is mounted at an angle of 55°.
