Loose glass for AEB 590-595 rotating beacon

Original loose glasses for AEB 590 and 595 rotating beacon in various clear and smoked colors.

If you have had a small accident and broken the glass, or would you like to change up the look of your AEB rotating beacon, we have loose glasses as a direct replacement.

The glasses are available in yellow / orange, clear, red, green and blue, including various smoked versions. Each gives its own look, that fits your vehicle.

The glasses fit directly with the AEB 590 halogen rotating beacons for tube mounting and AEB halogen rotating beacon for surface / 3-bolt mounting, so no need for any adaptations - just change to a new one!

The glasses are sold separately.
