Horpol LED GRAPHITE marker light cold white/red - 12V-24V

LED marker lights from Horpol with white / red light and a dark / tinted design. This gives a rough and discreet look. Available with short or long arm.

LED marker lights from the Polish manufacturer Horpol in their GRAPHITE series. The dark-tinted lenses give a rugged and discreet look. Despite the dark glass, the 10 integrated LEDs provide a powerful light output.

The marker lights are available in a short and a long version, with cold / xenon-white and red light.

Each marker light is supplied with 5 metres of 2×0.75 mm² cable and is suitable for use in all weather conditions thanks to an IP68 rating. The short version includes mounting accessories, while the long version comes with an integrated mounting bracket.

Ref.: LD 2564, LD 2560, LD 2561
