Strands Siberia XPA

E-approved Strands Siberia XPA LED lights and dual color position light.

Strands Siberia XPA LED driving lights, available in 7". It provides a highly effective lighting with an elegant and rounded design. It is part of the highly popular Strands Siberia series, developed with a focus on powerful lighting combined with stylish design.

The elegant appearance is enhanced by dual-color positional lights running along the lens edge, adjustable to orange or white.

The 7" version of the Siberia XPA delivers 6720 lumens and, with a wide combination beam, achieves a range of 662 meters at 1 lux.

This allows you to see reflections in road markers much farther than specified.

The combination light offers a strong, focused beam in the center and ample surrounding light, providing wide road illumination from edge to edge.

Unlike many other round LED driving lights, the Siberia XPA offers almost 45m light spread on each side, compared to the typical 30m.

Designed for cars and other light vehicles, the Siberia XPA is also suitable for larger vehicles seeking compact, discreet lighting. Its black housing is robust, durable, and completely waterproof (IP68).

The pre-mounted DT4 connector makes installation easy, ensuring quick and stable connection. Compatible with both 12V and 24V systems and protected against radio interference (ECE R10).

Siberia XPA is E-approved for use on public roads.

Connection:

- Black: Minus / -
- Red: + High beam
- White: + White position-light
- Yellow: + Yellow position-light
