PROLINE LED reversing/working light

Bullboy Proline Slim offers high brightness, lightweight, and durability, perfect for demanding applications.

The Bullboy Proline Slim delivers impressive brightness in a sleek and durable design.

The lamp's heat-conductive plastic material extends the LEDs' lifespan, and combined with its high IP rating and approval as a reverse light, it is ideal for demanding applications.

Perfect where reliability, low weight, and maximum performance are required – even under harsh conditions.
