Entac rechargeable 3W LED flashlight with power bank

Versatile aluminum LED flashlight with USB charging and power bank, suitable for work and emergencies. Offers 350 lumens and IP44 protection.

The robust Entac is a versatile LED flashlight in lightweight aluminum, suitable for work, leisure, and emergencies. The flashlight combines a powerful XPE front LED with a practical COB side LED, features adjustable zoom and four light functions. The built-in 1200 mAh Li-ion battery is charged via USB, and the integrated power bank function allows charging smaller devices on the go. With IP44 protection, it is splash-resistant and suitable for both indoor and outdoor use.

Benefits:

Powerful XPE front light and COB side light
Up to 350 lumens brightness
Adjustable zoom function
4 light settings (100%, 50%, strobe, and side light)
Rechargeable 1200 mAh Li-ion battery
USB charging and power bank function
Robust aluminum casing with IP44 protection
