M8 set screw - stainless / A4

M8 Hex Bolt with Gleitmo is a stainless steel A4-70 full-thread hex bolt.

M8 Hex Bolt with Gleitmo is a stainless steel A4-70 full-thread hex bolt designed for demanding applications where excellent corrosion resistance is essential. The Gleitmo coating reduces friction and helps prevent galling, ensuring smooth and reliable installation. Manufactured to the DIN 933 standard for strong, precise, and dependable fastening.
