H4 LED Bulb 24V

A powerful LED light bulb with H4 socket.

H4 LED bulb with powerful SMD 3-Chip LEDs.

The Xenon-white model can be used as day-running lights in the headlights and as fog lights. The yellow model can be used as indicators.

There is a built-in voltage regulator, so that the LEDs are protected for over voltage, which gives you a longer life.

The Xenon-white color corresponds to ca. 6000K.

- Lamp length: 65mm
- Length of the base: 35mm
