LED strip, RGB, 50cm - 24V

Smart RGB multicolor SMD-Tape so you can make a sea of colors with the same SMD-Tape

LED stripes can be shortened or extended further so it just fit for your project. The stripe is 12 mm wide and built up in small modules of 10 cm where there are 6 powerful SMD LEDs in a circuit ready to 24Vdc. There are clear markers where the Ribbon can be cut, as well as solder-Islands "where you can solder wire on or extend with more LED stripe. On the back is a powerful 3 m tape which ensures that the LED stripe stays attached without screws.

It is sold in units of 50 cm, but can be supplied in rolls up to 5 meters. I.e. for example, if you order 5 x 50 cm you will get it in a long piece on 250cm, and then you can even short it up/extend it as needed.

LED stripes must be connected to an RGB Controller to take advantage of all features.
