3mm Mounting Frames - Metal

They fit for 3 mm diodes. The framework allows an easy mounting in the plastic shields on scooters or others.

They fit for 12V indoors 3 mm diodes. The framework enables an easy mounting of the plastic shield on scooters or others. They must be inserted in a 6 mm hole.

These can unfortunately not be used in conjunction with our 24V diodes, as the shrinkable sleeve on these is excessive/large.
