Battery Holder for AA Batteries

Battery-holders for AA batteries. Three models - 2 x AA, 4 x AA - flat and square.

Battery-holders for AA batteries. Three models - 2 x AA, 4 x AA - flat and square. There are either wires or 9V-battery plugs in the ends of the holder, so you also need 9V clips to connect wires to the holder. Go through the pictures to see which model it is.

With 2 batteries you get a voltage of 3V, while with 4 batteries you get a voltage of 6V. and with 8 batteries 12V
