50 cm RGB LED SMD Stripe 12V

A smart RGB multicolor SMD stripe, so you can make a sea of colors with the same SMD stripe.

LED SMD stripe can be shortened or extended further, so it just fit for your project. The stripe is built up in small modules of 10 cm, where there are 3 powerful SMD diodes in a circuit ready for 12Vdc. There are clear markers, where the stripe can be cut, as well as solder-Islands, "where you can solder a wire on or extend with more SMD stripe. On the back, there is a powerful 3 m tape, which makes the LED SMD stripe to stary attached without screws.

It is sold in units of 50 cm, but can be supplied in coils up to 5 metres. For example, if you are ordering 5 x 50 cm, you will get it as a long piece - 250cm and then you can even short it up/extend as it fits for the task.

SMD stripe must be connected to an RGB Controller to take advantage of all features.

Also available as a splash proof.

Please Note!! The colors may vary slightly over time, so that's why we recommend to buy in to a space of transition in the same order!
