LED Touch Dimmer, 12 ~ 24Vdc 3 Amp.

This smart LED touch dimmer can be used for both 12V and 24V products.

This smart touch dimmer can be used for both 12V and 24V products. The dimmer is very compact and it is controlled via a touch on the surface. There is an easy on/off power options and it can remember the last brightness set. It is available with a 2-metres wire or DC plugs on 30cm cables.

The in-and-output voltage automatically adapts to the power supply. This means that if the input voltage is max. 12Vdc, there will be no more than max. 12Vdc out. When the input is maximum 24Vdc, the output voltage is 24Vdc.

Max. load is 3 Amps.
12Vdc max. 36 watts.
24Vdc max. 72 Watts.

If you must use it at home, remember that it needs a 230V ~ 12Vdc transformer.

Dimensions: L 39mm x w 31mm x H 9mm

Typically fastened with a glue or a double-adhesive.
