# E14 adapter for G4 / MR16 G5.3 bulbs

A special E14 to G4 adapter, which is typically used in the process of LED conversions in campingvogns, boats and other vehicles.

A special E14 to G4 adapter, which is typically used in the process of LED conversions in campingvogns, boats and other vehicles. The advantage here is that with this adapter you can replace the 12 volt E14 bulbs with 12V G4 LED bulbs, where the range is considerably larger.

!!! MAY NOT BE USED in HOMES for 230VOLT!!!

The length is 40 mm and the largest diameter is 22 mm.
