E27 adapter for G4/MR16 G 5.3/bulbs

A special E27 to G4 adapter, which is typically used in the process of 12V LED conversions in campingvogns, boats and other vehicles.

A special E27 to G4 adapter, which is typically used in the process of 12V LED conversions in campingvogns, boats and other vehicles. The advantage here is that with this adapter you can replace 12 volt E27 bulbs with 12V G4 LED bulbs, where the range is considerably larger.

MAY NOT BE USED IN HOMES FOR 230VOLT!!!

The length is 43 mm and the largest diameter is 28 mm.
