Prostrobe Multi-Flare - 1 x turtle, rechargeable

A new version: Multi-flare with heavy plastic-house, work perfectly as marker lights, warning lights on vehicles and hazard warning signal.

Multi flares with strong plastic-house, work perfectly as flexible marker lights, warning lights on vehicles - for laying on the road by accident. The lamps have a powerful magnet built in and can therefore be on your car, truck or or trailer sides, roof and ends.

The all-new Pro version of multi flares have 8 powerful white LEDs built in, which means that the multi flares can be used as a flashlight or for an extra marking in front.

The lamps contain rechargeable batteries that hold for approx. 17 hours of operation - completely depending on the selected function.

That includes:

- A charging adapter that plugs onto the lamp magnet
- A cigarette-plug adapter for 12V and 24V,
- 230V adapter
- A charging cable
