1 pcs. 10 mm XLaZerleds 12V in Parts

The latest technology makes it possible to make these super diodes with a tremendous brightness.

The latest technology makes it possible to make these super diodes with a good brightness.
Including resistors for 12V, techflex and assembling instructions, however without mounting frames.

Note: these 10 mm approx. 70mA per paragraph uses diodes, which corresponds to a level of power consumption for 4 ordinary diodes.
