Matronics Flexbox 6 Dual - Two Lamps in Series, 10-30V

2 pcs. waterproof LED modules mounted in series. Suitable for an effect lighting.

2 pcs. waterproof LED modules mounted in series with 30 cm distance. Suitable for an effect lighting, such as MC and scooters, where they can be hidden under the fairing parts or the tank.

However, they can also easily be used indoors and outdoors on cars and trucks, since the operating voltage is 12 ~ 33Vdc.

The modules can be attached either via screws or glued with, for example sikaflex. The measurements are just 60 x 24 x 14 mm (L x W x H).
