RGBW Wires - 4 x 0.25mm² og 1 x 1mm²

Loose wires for RGBW products, such as LED stripes. One wire per color and a stronger wire for common plus.

Loose wires for RGBW products, such as LED stripes. There is one wire per color channel and a stronger gray wire for the common plus.

On LED stripes, the wires are easily soldered on to the solder-pads.

The wires are maximum 10m long when measured. If you purchase 15 meters, you will receive one length of 10m, and one length of 5m.
