Brackets for Xenon bulb H7

HID Brackets for H7 xenon bulbs. Replaces the original clip.

A locking-ring for H7 bulbs. Replaces the original clip, where this clip has space to put in the cables from the xenon-kit.

Pay attention these are universal clips and several of the car models run with different clips on the low beam and the high beam.

Type 1 fits among other things: Opel Vectra C, Opel Astra-H, Mercedes Benz E-Class, Saab9-3, Audi, BMW X5

Type 2 fits among other things: Mercedes W212 long beam.
