Hella Rallye 3003 Auxiliary Lamp - 12 / 24V

A large auxiliary lamp with H1 and W5W sockets, for mounting on cars and trucks. The large reflector gives a great light at long distances.

A large auxiliary lamp for mounting on cars and trucks. The large size, but low weight make the lamp useful on larger vehicles. It is made from stainless materiels. The large reflector and the clear front-glass give a great light at long distances.

The lamp has a H1 socket (12V/55W, 24V/70W) and W5W socket for the position light (12V/5W, 24V/W).

It is easily mounted with one bolt in the bottom of the lamp. The lamp can also be tilted, so that it gives you the wanted light.

The lamp is E-approved for both 12V and 24V vehicles.
