# Prostrobe Multi-Flare - 2 x sticks in case

Two smart strobe-sticks with yellow or blue light with a built-in flashlight. It can be placed in the included bases or fixed with the built-in magnets.

Two smart strobe-sticks with yellow or blue light with a built-in flashlight. It can be placed in the included bases or fixed with the built-in magnets, or simply can be held in your hand. This makes them useful for many purposes, for example marking an accident or for regulating traffic. There is also three reflex-strips around it, making it very visible even without power.

There are three functions to choose from with the button on the side:

- Flash
- Always on
- Flash light

The two feet can be folded out, after which you can place the stick.

Each stick uses 3 x AAA batteries. The sticks are 185mm and 40mm in diameter.
