50W CREE LED 10-30V - T10 Canbus

A powerful T10 / T15 / W16W LED bulb with 10 bright 5W LEDs. It is equivalent to a 25W incandescent bulb.

A very bright T10 / T15 / W16W LED bulb that fits in to the original sockets. The bulb has 10 powerful 5W LEDs that are equivalet to a 25W incandescent bulb, where for example a normal T10 bulb is only 5W. Because of the higher watt, you should be aware that the lamp will be quite brighter.

With 2 LEDs on each side of the bulb, it will lighten up the whole reflector and with 2 LEDs at the front of the bulb, it will also create a bright beam forward.

The 50W is the rating of the LEDs, while their real consumption is 4.5W.

With the high consumption, they will cheat the lamp check on most models. If you have any error, external resistors might be necessary.

You can also use the bulbs on cars without lamp check.

Xenon White

SKU 120981

LEDs: CREE, 10 x 5W

LED placement: 4 x 2 LEDs in sides - 2 LED in front

Consumption: 4,5W

Equivalent: 25W incandescent

Color temperature: 6000K

Dimensions: Ø13 x 46mm

Warm white

SKU 120984

Consumption: 4,5W

LED placement: 4 x 2 LEDs on the sides - 2 LED at the front

LEDs: CREE, 10 x 5W

Equivalent: 25W incandescent

Red

SKU 120983

Consumption: 4,5W

LED placement: 4 x 2 LEDs on the sides - 2 LED at the front

LEDs: CREE, 10 x 5W

Equivalent: 25W incandescent

Yellow/Orange

SKU 120982

Consumption: 4,5W

LED placement: 4 x 2 LEDs on the sides - 2 LED at the front

LEDs: CREE, 10 x 5W

Equivalent: 25W incandescent

Dimensions: Ø13 x 46mm
