LED Driver for Hella LED Celis-rings - 350mA

A potted and waterproof LED driver for 12V and 24V with a connector for the emitters in Hella Celis rings. It replaces a defect original driver in Hella Celis lamps.

A potted and waterproof LED driver for 12V and 24V with a connector for the emitters in Hella Celis rings. It replaces a defect original driver in Hella Celis lamps.

The connector on the driver matches the original and there is also cable-lugs on the input. This makes replacing them very simple.

About 20 cm cable on the input and on the output.
