12V to 5V adapter (DC/DC) 3000mA

Small 12V - 5V DC converter for charging mobiles, tablets and other devices that use USB or micro USB connector. Two variants.

The compact waterproof design allows this USB charger/power supply many uses. It is stored as fixed USB charger in cars, boats and scooters for your mobiles, tablets and etc. With both a USB female connector and the micro USB connector, it can be connected to all types of USB units, either directly or via an extra cable.

The red and the black wire are connected to a 12Vdc supply, and it delivers 5Vdc and a max of 3A/15W.

25 cm long cable on the model with micro USB connector and 30cm on model with the female plugs.

The enclosure has wings in both sides, for screwing or bolting in on.
