CRI95 + LED Strip - 24V - 50cm

A powerful LED stripe for 24V with extra high color reproduction (CRI) that gives you a better light.

Powerful 24V LED stripes with a warm white light and with LEDs that have a high color reproduction (CRI). The stripes are made of small circuits in series, so you can cut the stripe, where marked. You can see the lengths of the circuits in the LED stripe data below.

The stripes are sold per 50cm and can be delivered in spools up to 5 metres.
If you purchase 5 pcs. you will receive one continious length of 250cm.

High CRI = High Color Reproduction

The high CRI value means that colored things will be lighted up more correctly. You will experience incorrect lit colors, when using light sources with bad CRI.
