230V to 24V DC LED transformer, IP67

Waterproof 24V transformers from 50W to 300W. Solid constructions with potted electronics.

Waterproof 24V LED transformers from 50W to 300W. Solid constructions with potted electronics, which protect the transformers against moisture and water. Because of this, the product can be mounted outdoors. 20cm wire is preinstalled on the Input and Output

The transformers are perfect for - 24V LED stripes, 24V rope-lights and other similar projects.

They have a built-in protection against:

- Shortcircuits
- Overconsumption
- Overheating

50W
SKU 504405
Input: 170-250V 50/60hz
Output: DC 24V - 2,1A
Standby consumption: 0.6W
Dimensions: 25 x 200 x 35mm

100W
SKU 504410
Input: 170-250V 50/60hz
Output: DC 24V - 4.17A
Standby consumption: 1.2W
Dimensions: 45 x 210 x 70mm

150W
SKU 504415
Input: 170-250V 50/60hz
Output: DC 24V - 6,25A
Standby consumption: 7,5W
Dimensions: 45 x 230 x 70mm

200W
SKU 504420
Dimensions: 41 x 250 x 73mm

250W
SKU 504425
Input: 170-250V 50/60hz
Output: DC 24V - 10.42A
Standby consumption: 3.1W
Dimensions: 55 x 250 x 75mm

300W
SKU 504430
Input: 220V
Output : DC 24V - 12,5A
Dimensions: 52 x 250 x 74mm
