24V SMD LED Rope Light

A flexible Rope Light for 24V that creates a bright light. It is made of LED stripes encapsulated in solid plastics. For outdoor use.

A flexible Rope Light for 24V that creates a bright light. The Rope Light is made of LED stripes encapsulated in solid plastics. It gives a great light with a light beam of 140 degrees. The Rope Light is completely waterproof and is intended for outdoor use.

The Rope Light can be delivered in whole lengths up to 30 meters. If you need longer lengths, you can use the accessories to join them. 24V Rope Light can be mounted in lengths of 40 meters and if you connect power in both ends - you can connect 80 meters.

There is a large selection of accessories for the Rope Light, amongst these - connectors and plugs.

The LED stripe is divided per 50cm, where there is a space between the LED stripes. Avoid bending the LED stripe too much, as the light in the section might go out. Use connectors with wires instead.

There are no accessories included with the Rope Light, so you must choose the needed accessories.

Specifications

Light Scattering	120 ~ 140 degrees
Ingress protection	65
Dimension	14x7mm
Diodes per meter	60 Pcs.
LED Type	1210 SMD
Section-length	50cm
Voltage	24Vdc
Temperature	-25 grader ~ 60 + grader
Consumption per metre	4,8 Watt ~ 200A
Estimated lifetime	30.000 hours
IP class	IP65

Warm white
SKU 269011
Colour Rendering (Ra): 80
Color: ~ 3000 k warm white
Light output per 100 cm: 350 Lumen

Cool white
SKU 269012
Colour Rendering (Ra): 80
Color: ~6000 k cool white
Light output per 100 cm: 350 Lumen
