230V to 24V DC Dimmable and Waterproof Transformer

A dimmable 24V transformer in models from 60W to 200W. Fully potted electronics make it completely waterproof.

A dimmable 24V transformer (TRIAC), in models from 60W to 300W. The dimming function can be controlled by both CR and LR dimming (leading/trailing edge).

The dimmer has fully potted electronics, which makes it completely waterproof. This makes it a obvious choice for mounting outdoors, for example for rope lights when dimming is required.

20cm wire is preinstalled on the Input and Output

4.160mA - 100 W
SKU 504310
Input: 180-240V, 0.5A 50/60hz
Output: 24V - 4.16A
Max ambient temperature: 50 degree
Max operating temperature: 80 degrees
Dimensions: 45 x 230 x 70mm

6.250mA - 150 W
SKU 504315
Input: 180-240V, 0.5A 50/60hz
Output: 24V - 6.25A
Max ambient temperature: 50 degree
Max operating temperature: 80 degrees
Dimensions: 45 x 250 x 77mm

8.300mA - 200 W
SKU 504320
Input: 180-240V, 13A 50/60hz
Max Operating Temperature: 70 degrees
Max ambient temperature: 40 degrees
Output: 24V - 8.3A
Dimensions: 45 x 256 x 78mm

12.500mA - 300 W
SKU 504325
Input: 180-240V, 13A 50/60hz
Max Operating Temperature: 70 degrees
Max ambient temperature: 40 degrees
Output: 24V - 12.5A
Dimensions: 45 x 275 x 77mm
