LED classic combination lamp 12V

ECE-approved trailer lamp with a tail, a brake and an indicator light. It is also available with a built-in license plate light. There is a 3 years waranty.

ECE-approved trailer lamp with a tail, a brake, and an indicator light in a classic look. The lamp has 4 red high power LEDs and 4 amber high power LEDs for respectively running lights and indicator lights. The lamp is also available with a built-in license-plate light, so you avoid mounting extra lamps for the license plate.

One lamp with license-plate light is enough, but you will get a more even light on the license plate with both lamps giving license plate light.

The lamp has a solid acrylic glass and an ABS base. It is completely dust and waterproof and it has a 3 years warranty from the manufacturer.

500mm cable length.

Reference: 99AR and 99ARL

- WHITE: FRAME / -
- BROWN: DRIVING LIGHTS
- RED: BREAK LIGHTS
- YELLOW: INDICATOR LIGHTS
