W5W MTEC Super White 24V, 2 pack

5W incandescent bulb for 24V position light that gives you a xenon look light. It is perfect for use with other MTEC Super White bulbs.

5W incandescent bulb for 24V position light gives you a xenon look light. It is perfect for use with other MTEC Super White bulbs.

The bulbs are not simply coated, instead the glass istelf is colored blue. This means that you avoid the coating falling off or the bulbs loosing their color.

As these are incandescent, but they use 5W, so you will not get any errors on the bulb-control / canbus.

These bulbs are unfortunately not ECE approved.

Reference: W3W, W5W, 501, 194, T10, 12256, 12961, 12V
