Superseal 1.5 and MCP 2.8K Crimp tool in a toolbox

A high quality crimping tool for Superseal 1.5 and MCP 2.8K terminals with 2 sets of interchangeable press jaws / bets.

A high quality crimping tool for Superseal 1.5 and MCP2.8K terminals with 2 sets of interchangeable press jaws / bets. The clever click-system makes it possible to replace the inserts without tools.

The crimp tool and jaws are securely placed in a tool box made of sturdy plastic, with solid locking-mechanism.

Crimp-dimensions

Below you can see the cable-dimensions that the jaws can crimp. It is of course important that you use the right jaws, to get the optimal crimp.

H2 jaws:
0.35 to 0.5mm - AWG 22-20
1.5mm - AWG 16

H3 jaws:
0.75mm2 - AWG18
1.00mm2 - AWG17
