Gylle Orange/Red LED Marker Light - 12V-24V

LED side marker with orange and red light.

The classic Gylle LED marker light with a rubber base and orange and red light sources. They can easily be pressed into the base and therefore you can choose whether it should be a right or a left lamp. The light sources are e-approved and therefore also the entire Gylle lamp.

There are 6 powerful LEDs of the old type in the bulb and a 6 metres rearwardly cable, which is put down through the gummy base.

Long model

The base has an overall length of 195mm and the light sources have a diameter of 61mm, when they are inserted. The head of the base has a diameter of 80mm.

The mounting surface is 100 x 50mm and it has a 6 pre-drilled holes in the metal plate at the bottom.

Short model

The base has a length of 110mm and the light sources have a diameter of 61mm when mounted. The head is the same as that on the long model with a 80mm diameter.

The mounting surface, the same holes and hole spacings as on the long model, however, the base is a little smaller with 95 x 48.
