Summer / Buzzer, 85dB

If you are missing a buzzer - this one is a good bet. It's very compact, but nevertheless provides a 85db tone.

If you are missing a buzzer - this one is a good bet. It's very compact, but nevertheless provides a clear tone, 85db. The small enclosure provides good protection and makes the mounting with screws easy. Choose between a 12V and 24V version. Choose between different models.

Out buzzers can be connected to both 12V and 24V, but note that the volume is adjusted accordingly.
